

Our Policy:

Welcome to the web site (the "Site") of CyberHound Pty Ltd ("Company", "we", "us" and/or "our"). This Site is operated by Company and has been created to provide information about our company and our solutions, technology and related services (together with the Site, the "Services") to our Service visitors ("you", "your"). This Privacy Policy sets forth Company's policy with respect to information including personally identifiable data ("Personal Data") and other information that is collected from visitors to the Site and users of the Services.

Information We Collect:

When you interact with us through the Services, we may collect Personal Data and other information from you, as further described below:

Personal Data That You Provide Through the Services: We collect Personal Data from you when you voluntarily provide such information, such as when you use our site, post materials on our site, search our site, or use certain Services that our technology allows you to use. Wherever the Company collects Personal Data we make an effort to provide a link to this Privacy Policy.

By voluntarily providing us with Personal Data, you are consenting to our use of it in accordance with this Privacy Policy. If you provide Personal Data to the Services, you acknowledge and agree that such Personal Data may be transferred from your current location to the offices and servers of Company and the authorized third parties referred to herein located in Australia, the United States and abroad.

Other Information:

Non-Identifiable Data: When you interact with users or the Company through the Services we provide, we receive and store certain personally non-identifiable information. Such information, which is collected passively using various technologies, cannot presently be used to specifically identify you. The Company may store such information itself or such information may be included in databases owned and maintained by Company affiliates, agents or service providers. The Services may use such information and pool it with other information to track, for example, the total number of visitors to our Site, the number of visitors to each page of our Site, the general theme of the users, and the domain names of our visitors' Internet service providers. It is important to note that no Personal Data is available or used in this process.

In operating the Services, we may use a technology called "cookies." A cookie is a piece of information that the computer that hosts our Services gives to your browser when you access the Services. Our cookies help provide additional functionality to the Services and help us analyse Services usage more accurately. For instance, our Services may set a cookie on your browser that allows you to access the Services without needing to remember and then enter a password more than once during a visit to the Services. In all cases in which we use cookies, we will not collect Personal Data except with your permission. On most web browsers, you will find a "help" section on the toolbar. Please refer to this section for information on how to receive notification when you are receiving a new cookie and how to turn cookies off. We recommend that you leave cookies turned on because they allow you to take advantage of some of the Service features. As part of our service and to better provide you with the most comprehensive services available, we use location based mapping to determine your location. The Company believes that in order to make your experience on our site the most productive that it can be, we use technologies to aid in that process, which vary by case.

Aggregated Personal Data: In an ongoing effort to better understand and serve the users of the Services, the Company often conducts research on its customer demographics, interests and behaviour based on the Personal Data and other information provided to us. This research may be compiled and analysed on an aggregate basis, and Company may share this aggregate data with its affiliates, agents and business partners. This aggregate information does not identify you personally. The Company may also disclose aggregated user statistics in order to describe our services to current and prospective business partners, and to other third parties for other lawful purposes.

Our Use of Your Personal Data and Other Information:

The Company uses the Personal Data you provide in a manner that is consistent with this Privacy Policy. If you provide Personal Data for a certain reason, we may use the Personal Data in connection with the reason for which it was provided. For instance, if you contact us by email, we will use the Personal Data you provide to answer your question or resolve your problem. Also, if you provide Personal Data in order to obtain access to the Services, we will use your Personal Data to provide you with access to such services and to monitor your use of such services. Company and its subsidiaries and affiliates (the "Company Related Companies") may also use your Personal Data and other personally non-identifiable information collected through the Services to help us improve the content and functionality of the Services, to better understand our users and to improve the Services. An inherent and proprietary part of our site is based on Artificial Intelligence which is used to assist in a variety of services, which include: web search, suggestions based on the theme of the topics and other unique offers which our AI determines may be of value to you. There is not a way for these aspects to be turned off. However, the Company and its affiliates may use this information to contact you in the future to tell you about services we believe will be of interest to you. If we do so, via email, each marketing communication we send you will contain instructions permitting you to "opt-out" of receiving future marketing communications. In addition, if at any time you wish not to receive any future marketing communications or you wish to have your name deleted from our mailing lists, please contact us as indicated below.
